Zero Point

CUT AND SEW MANUFACTURE

WHO WE ARE

Welcome to Zeropoint, a family-owned cut and sew manufacturer specializing in producing a wide range of sewn products. Since our establishment in 2010, we have been passionately crafting high-quality items, driven by our commitment to helping every customer create outstanding products and build successful businesses from zero.

With over a decade of experience, Zeropoint has built a reputation for excellence in cut and sew manufacturing. Our journey began with a deep appreciation for craftsmanship and a dedication to producing top-notch sewing products. Today, we continue to uphold these values, combining traditional techniques with innovative approaches to deliver exceptional results.

Experience the difference of partnering with a family-owned cut and sew manufacturer that genuinely cares about your success. At Zeropoint, we value long-term relationships built on trust, open communication, and mutual growth. Together, we can navigate the challenges, unleash your creative potential, and build a thriving business.

ORDERING PROCESS

Ordering is easy. Just follow these steps.

1

Initial Contact and Inquiry

Provide project details: Share information about your product, including design concepts, specifications, quantities, and any specific requirements or deadlines.

2

Product Consultation and Feasibility Assessment

Consultation: We will provide insights, suggestions, and feasibility analysis based on our expertise

Assess technical feasibility: Evaluate the technical aspects of your design and ensure it can be manufactured effectively and efficiently.

3

Design and Sampling

Design confirmation: Finalize the design details, including materials, dimensions, colors, patterns, and any specific features required.

Sampling process: We will create an initial sample based on the agreed design specifications. You can evaluate the sample for fit, functionality, and overall satisfaction.

4

Sample Revisions and Approval

- Feedback and revisions
- Iterative sampling
- Sample approval: Once the sample meets your expectations, approve it for mass production.

5

Quotation and Order Confirmation

Quotation preparation: We will prepare a detailed quotation based on the approved sample

Order confirmation: Review the quotation and confirm your order by signing a Purchase Order.

6

Production and Packaging

Manufacturing process: Our skilled team will handle the cut and sew process, closely following the approved sample and design specifications.

Thank you!

for your order

FAQ

Answering your most common questions

What should I do if I can't locate the products we wish to manufacture in your catalog?

We offer custom product development services tailored to our clients' unique needs. If the product you're looking for is not in our catalog, we can collaborate with you to design and develop a customized solution. Our skilled designers and technicians will work closely with you to create a product that meets your specific requirements and quality standards.

Can you provide a price quote based on the product pictures we found online?

If the product you're interested in is similar to something we have previously produced, we can attempt to estimate the price based on our understanding of the materials and specifications. However, please note that our experience may be limited, and there could be variations from the original products you find online. To provide a more accurate price quote, it would be helpful if you could send us a sample. This will greatly facilitate our assessment and ensure a more precise pricing evaluation.

Can you provide samples for us to evaluate, or can you create samples according to our specific requests?

Yes, we can provide samples for evaluation. If we have similar existing samples, we can provide them. Alternatively, we can create custom samples based on your specific requests. Contact our Sales Team to discuss your sample requirements and options.

Is it possible to place an order with a lower Minimum Order Quantity (MOQ) than what is specified in your catalog?

We understand that the Minimum Order Quantity (MOQ) can be influenced by various factors, including fabric production constraints such as printing and dyeing processes. These processes often have their own minimum requirements due to the nature of fabric production. While we strive to accommodate lower MOQs whenever possible, certain limitations may exist based on these fabric-related considerations. Our Sales Team will assess the specific requirements of your order and provide guidance on any potential constraints related to fabric production processes that may affect the MOQ.

What is the estimated delivery time for your products?

As the manager of our cut and sew manufacturing facility, our estimated delivery time for products is typically around 40 days. However, please note that the exact delivery time can vary depending on factors such as order complexity, quantity, and current production workload. We strive to maintain efficient production schedules and meet agreed-upon delivery deadlines. Our Sales Team will provide you with a more precise estimate based on your specific order requirements and our production capacity at the time of inquiry. We are committed to delivering your products in a timely manner while ensuring the highest quality standards.

**BABY AND TODDLER

BABY BIBS

100% PU-treated Polyester | 100% free from PVC and Phtalates

Features:

This Baby Bib has a soft ,flexible and waterproof material that is easy to rinse or wipe clean after each use. For tougher stains it can also be machine washed in 40 degrees. The wide fit covers both shoulders and chest, and the flexible front pocket catches all spills or crumbs, resulting in less floor scrubbing. Attaches in the neck with a large and soft rip-tape that makes the neck width adjustable. Full off functions and smart features, but most important – you're little one can look great even while making a mess in the kitchen.

SKU: 080401

PU BIB WITH DETACHABLE POCKET

100% PU-treated Polyester with PE pocket

New material

SKU:0804161

Pu bib with detachable pe pocket

Size (approx):25*33CM

printed (customizable)

MOQ: 2000pcs per design

CBM:48pcs/53*45*15CM

PE bib can effectively catch the food debris

The baby bib is detachable, for easy cleaning and storage

The soft children's specialized Velcro

The advantage of PU-treated Polyester VS PEVA

1:100% PU-treated Polyester offers a soft and high-quality texture, ensuring a gentle touch against the baby's skin for a comfortable wearing experience.

2:100% PU-treated Polyester baby bibs are machine washable, maintaining their quality and performance even after repeated washing.

3:100% PU-treated Polyester allows for effortless customization, enabling the creation of personalized baby bibs with unique designs. Screen printing, digital printing is all available.

PEVA BABY BIBS

SKU: 080409

PeVA bibs with uv printing

PEVA BIBS with UV printing offer cost-effectiveness, but they typically require a minimum order quantity (MOQ) for production. This printing technique enables affordable customization options while maintaining high-quality results. The MOQ ensures optimal efficiency and value for bulk orders.

Size: 28*44CM

Printing: Customizable

MOQ: 7000pcs per design CBM: 160pcs/50*35*40CM

SKU: 080410

PeVA bibs with screen printing

PEVA BIBS with screen printing provide a versatile option for customization with lower MOQ requirements compared to UV printing. While slightly higher in price, screen printing offers excellent quality and durability, making these bibs an ideal choice for personalized designs with cost-effective production in smaller quantities.

Size: 25*35CM

Printing: Customizable

MOQ: 3000pcs per design CBM: 48pcs/45*27*17CM

SKU:0804160

long Sleeved bib

Size (approx) :chest 33cm front length 43cm sleeve length 33cm

Printing: customizable printing available, digital sublimation

Material: knit polyester fabric and TPU coating

MOQ: 2000pcs per design

CBM: 48pcs/30*30*35CM

Customizable Design:

The bib can be customized using digital sublimation, allowing for a wide range of vibrant and personalized designs

Machine Washable:

The bib is conveniently machine washable, ensuring easy cleaning and maintenance for busy parents and caregivers.

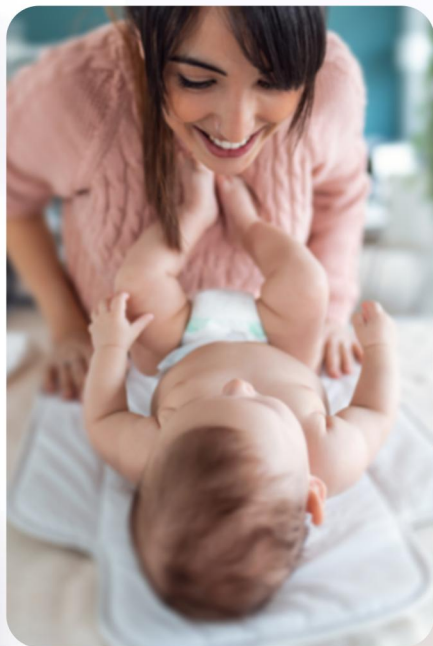

Soft and Waterproof:

The bib is made from soft polyester knit fabric and TPU. The TPU coating acts as a barrier, keeping liquids, food, and stains from soaking through the fabric and reaching the child's clothing.
